PIPE BREBBIA Srl VIA PIAVE 21 - 21020 BREBBIA (VA)
TEL. 0332770286 FAX 0332770265 info@brebbiapipe.it

Brebbia today produces pipes in the era of the computer that we believe have a certain fascination and Luciano Buzzi knows it. Brebbia is a small and solid company with a great image that produces **quality pipes** and collector's pipes and that has great plans for the future.

Brebbia pipes are undoubtedly amongst the best that you can find on the Market today.

The briarwood is selected and aged and the mouthpieces have an anatomic shape that helps the passage of the smoke totally eliminating the fastidious effect of condensation caused by the condensate.

Brebbia is also the future and innovation. such as the invention of the smoke separator protected by an international patent which is a device that is applied to the end of the mouthpiece that permits the deviation of the smoke in various directions. In this way the smoke is cooled avoiding the creation of irritation to the palate and the tongue.

SINCE THE 21/12/1999 BREBBIA IS ALSO A WAREHOUSE, TAX NO. VAT00001V AUTHORISED FOR THE DISTRIBUTION OF TOBACCOS AND DISTRIBUTES EXCLUSIVELY CIGARS AND PIPE TOBACCOS.

DUO FILTER

Very difficult and complicate pipe to produce

The Duo filter is a pipe with two filter lodgments: One in the bottom and the other in between the shank and the mouthpiece. It is possible this way to take full advantages from different types of filters : Below a balsa filter to drain the condensation and above the coal filter or both coal filters to get a really dry and fresh smoke: the choice is yours

69 years of production, 66 years of activity held by the same family.

Business started thanks of the creativity and the ingenious of Mr. Enea Buzzi who invented his first pipe with a cover that could firmly close the bowl, and thanks of two hidden holes could be smoked outside also with a strong wind without risks of fire, or in the rain, but it was also appreciated as it could warm up the hands in cold season. (At that time the modern heating did not exist)

The first series production of 1.000 pcs. was set up by the Rossi historic factory(1876-1975) for Brebbia and fast sold out, but for the young Enea the opportunity came when Rossi could not repeat the order as the pipe-business at that time being was booming due the new deal. For Mr Buzzi it was time to find the capital to start to produce pipes by himself.

With a new great idea ,that was an evolution of the prior one, and due the fact he had no money to buy the machinery he started to hand carve artistic pipes of contemporary VIP of the time like : Truman, Churchill, Stan Laurel and Oliver Hardy and to sell them into U.S. and G.B. In this case the cover was the hat of the figures and the hidden holes communicated with the nose of them.

Puffing the pipes with the chimney closed with the hat the smoke come out from the nose of the VIPs. Customers appreciate the funny idea, the fine carving and started to buy.

The story of M.P.B. (Manifattura Pipe Brebbia) , later "Brebbia", the partnership with the selling genius Achille Savinelli , and all details of the Brebbia story is well described in the booklet enclosed in the packing of our commemorative " MUSEUM" pipes.

We also brought at new life our old M.P.B. logo 7 years ago.

Under this brand we sell Vintage and traditional pipes, Sterling Silver pipes and our pipes of the year .

We appreciate your interest in our production!
